

NO DATA CENTERS.

NO MORE WAREHOUSES.

Tell the North Brunswick Township Council:

Our quality of life is not for sale!

What's happening?

The town council is planning to override current zoning with a “redevelopment plan” to construct a massive industrial and warehouse facility next to the high school on Rt 130.

Thanks to hundreds of neighbors attending the council meeting in June, the council was forced to delay their vote on the plan and they are considering a total ban on data centers in North Brunswick.

Keep up the momentum!

Show up at the next two council meetings (July 27 + August 24, 7 PM @ the Municipal Building, 710 Hermann Rd.) to hold our local government accountable.

Write to the mayor and council to share your concerns.

Talk to your neighbors about the impacts of industrial development near our homes.
